

## AI Artist & Video Creator (Mid-level).

Role:	<b>AI Artist &amp; Video Creator</b>
Type:	Contract (with potential to go full-time)
Salary:	c. £35k
Location:	SW London (WFH Wednesdays)
Reports to:	Creative Director

### About BearJam

BearJam is an award-winning video production company based in London, creating bold filmed and animated content for brands including Netflix, Oracle Red Bull Racing, Just Eat, The FA, and Knight Frank. Storytelling is at the heart of everything we do.

We're at an exciting stage of growth, expanding our in-house creative capabilities and exploring how generative AI can unlock new visual possibilities for our clients.

### Overview of the Role

We're looking for a hands-on AI Artist & Video Creator to help bring AI-powered visuals into commercial, branded, and social-first content. This is a practical, creative role for someone who enjoys experimenting with emerging tools and turning that experimentation into compelling visual stories.

You'll work closely with our creative and production teams to explore how generative AI can sit alongside live action, animation, and post-production workflows – always in service of great storytelling.

### What You'll Do

- Translate creative briefs into high-quality, AI-enhanced visual content
- Experiment with generative image, video, and audio tools to develop new creative approaches
- Create and refine prompts for image-to-video and text-to-video workflows
- Edit and polish AI-generated content using After Effects, Premiere Pro, DaVinci Resolve, or similar
- Integrate AI visuals into live-action and animated projects where appropriate
- Collaborate with in-house and freelance creatives to deliver client-ready work
- Stay up to date with emerging platforms and tools, sharing learnings with the team
- Use AI tools ethically, securely, and responsibly

## Who You Are (Skills & Qualities)

### Must-Haves:

- Experience creating video or motion content using AI tools
- A strong visual eye and sense of what works on screen
- Comfortable experimenting with prompts and new platforms
- Video editing or motion skills (AE, Premiere Pro, DaVinci Resolve, etc.)
- Understanding of post-production workflows and visual storytelling
- Curious, adaptable, and keen to explore new creative approaches
- Fluent in English

### Nice-to-Haves:

- Background in VFX, motion design, or creative technology
- Familiarity with audio editing, colour grading, or animation
- Basic scripting or automation knowledge
- Interest in AI workflow optimisation

---

## Why Join BearJam?

- A chance to help shape how AI is used in real-world content production
- Creative freedom within a supportive, ambitious team
- Hybrid working with a studio base in leafy Wandsworth
- Learning opportunities and room to grow
- Benefits including software allowance, increasing annual leave, bonus scheme, gym access, and more

---

## How to Apply

Send your CV, cover letter, salary expectations, and examples of AI-led or AI-enhanced work to [jobs@bearjam.co.uk](mailto:jobs@bearjam.co.uk) Subject: AI ARTIST & VIDEO CREATOR

Let's make impossible content, together.
